Hi Mark: I need to update the EPA Inspector General on high risk facilities in Region 3 for EtO. Thanks for providing the stack test report. I was wondering if I could say that Braun's control efficiency was greater than 99%...is that okay to share publicly?

I don't believe we inspected B Braun although I believe the engineer is planning on doing an inspection soon. I copied him on the e-mail. They also conducted required stack testing with the results copied on this e-mail.

Thanks,

Alice- Craig decided to retire and leave us all alone. For the Braun situation- Mark (NERO Air Manager) should be able to respond. Brian is a good place to start of risk related stuff.

Subject: Braun EtO update

Hi, Craig: I was wondering if PADEP had conducted any inspection at Braun in Allentown since they installed their new control back in summer 2020. If you can find out for me, that would be greatly appreciated!
